

BEHAVIORAL HEALTH MEASURES

We value everything you do to deliver quality care for our members – your patients – and to make sure they have a positive healthcare experience. That’s why we’ve created this easy-to-use, informative QRS At-A-Glance Guide. It gives you the tools you need to meet, document and code the **measures**. Together, we can provide the care and services our members need to stay healthy and improve quality scores. This supports our providers and ultimately benefits our members. Please contact your Provider Relations representative if you need more information or have any questions.

	<ol style="list-style-type: none"> 3. Stress the importance of taking the medication even if they begin feeling better. 4. Talk about common side effects, how long they may last and how to manage them. 5. Let your patient know what to do if they have questions or concerns. 6. Monitor with scheduled follow-up appointments. 7. Consider a psychotherapy referral for your patients. This may increase the chances of staying on medication and decrease the likelihood of recurrence. <p>Before prescribing antidepressant medication for your Medicaid patients, refer to the Preferred Drug List (PDL) on the state-specific health plan website.</p> <p>Before prescribing antidepressant medication for your Medicare patients refer to the Plan Formulary.</p>	<p><u>UB Revenue Codes:</u> 0450-0452, 0456, 0459, 0981</p>
